

Environmental Policy

Franklin Silencers believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers, and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

Our policy is to

- Wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Minimise our waste by reusing or recycling as much of our waste products as possible.
- Minimise energy and water usage in our buildings, vehicles, and processes in order to conserve supplies, and minimise our consumption of natural resources, especially when they are non-renewable.
- Designing and manufacturing products with an increasingly sustainable life cycle
- Operate and maintain company vehicles (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport.
- We are committed to preventing pollution by applying the principles of continuous improvement in respect of air, water, noise, and light pollution from our premises, and to reduce any impact from our operations on the environment and local community.

- As far as possible we purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new process or products we intend to introduce in advance.
- Any environmental breaches will be recorded, and the relative governing body notified.

This policy will be communicated to employees, contractors, and suppliers to ensure our policy commitment and our expectations of others are clear. This policy will also be made publicly available on our website.
